2. We have heard of financial planning, budgetary planning, planning for the long future and so on. There are a wide variety of plans with short and long term objectives. Long term planning can extend to even twenty years like bringing river water to cities, developing tube railways in cities etc.,
3. Planning requires the support and cooperation of persons concerned in the activities. If there is no systematic and integrated approach in the planning process, planning becomes a mere mockery. There is no job which is too small for planning. Even to witness a movie in a theatre we must plan well ahead! Our plans must be realistic and possible to reach with the resources we have: otherwise the whole planning becomes a wishful thinking and day dreaming.
4. "Rome was not built in a day" is a proverb which contains the importance of planning in our achievements. Efficient performers are always great planners. We have heard of Dr. M.
